The Now-for-Next in Psychotherapy

Gestalt Therapy Recounted
in Post-Modern Society

by

Margherita Spagnuolo Lobb

Preface by
Donna Orange

The Istituto di Gestalt was founded in 1979 and it was the first School of Gestalt therapy training in Italy.

It has made a significant contribution to the development of this psychotherapeutic method in Italy and is now internationally recognized for its original theoretical development of the principles of Gestalt therapy, especially in hermeneutic terms, i.e. in terms of ongoing dialog with the demands of the society in which we live.

From the beginning the Institute was in constant touch with the founders of Gestalt therapy, especially with Isadore From.

Summer Programme for Gestalt Psychotherapists

One of the most important (and forgotten) issues for psychotherapists is to take care of oneself and to give oneself time and space to breathe, concentrate, to be able to accept the support of someone else. The world is changing fast. Globalization, dislocation, the threat of climate crisis, terrorism and economic challenges are having significant effects on clients and their communities.

This programme will provide participants an opportunity to explore the impact of these challenges for them, their clients, and for the development of Gestalt psychotherapy. This summer retreat will offer you the possibility to work on yourself, while being updated on contemporary Gestalt therapy theory and to reflect on the application of Gestalt therapy principles to today's clinical problems.

And of course - to have good Italian food, swim in the Ionian Sea, and visit many historical (Greek and Roman) sites.

The program is led by **Margherita Spagnuolo Lobb** psychologist, psychotherapist and researcher, international trainer, Director of the Istituto di Gestalt HCC Italy (Siracusa, Palermo and Milan), a post graduate school of Gestalt psychotherapy recognized by the Italian Minister for Universities and Research and by the European Association for Gestalt Therapy (EAGT).

A former president of the European Association for Gestalt Therapy (EAGT), of the Italian Federation of Gestalt Therapy Schools (FISIG), and of the Italian Federation of all Psychotherapy Methods (FIAP), she is founder and honorary president of the Italian Association of Gestalt Psychotherapists (SIPG), full member of the New York Institute of Gestalt Therapy (NYIGT), of Society of Psychotherapy Research (SPR), of Gestalt Theory and its Applications (GTA).

In her clinical work, she has hermeneutical applied Gestalt therapy principles to develop a relational, field oriented, phenomenological and aesthetic approach. Recently she has been developing the integrative experience of suffering of the "between" (a new field view on psychopathology) and development.

Her book - *The Now for Next in Psychotherapy. Gestalt Therapy Recounted in Post Modern Society* - is available in 8 languages.

In 2018, she has received the Lifelong Achievement Award from the Association for the Advancement of Gestalt Therapy (AAGT) in Toronto, Canada, and from the Psychological Council of Sicily (OPRS) in Palermo, Italy.
